JOURNAL OF THE AMERICAN HEART ASSOCIATION

UNIVERSITY of MARYLAND
SCHOOL of MEDICINE

journal of the international
society of sports nutrition

When you're low on this
"Erection-Hardening Factor" —

**You stay LIMP as
a wet noodle!**

- ✓ No matter what sex drugs you take!
- ✓ No matter how much you want to make love to your woman!
- ✓ No matter how hard you try!
- ✓ Yet most men over 50 are critically deficient in EHF — and don't even know it!

**Now — you're about to discover how to naturally
REV UP your EHF — and perform like a sexual
TIGER in the bedroom again... and AGAIN!**

Dear friend,

Before you go any further, a gentle word of caution:

I'm going to talk to you not only as a doctor — but **man-to-man**. So you're going to read frank, explicit language about sexuality.

Now, if the woman in your life wants to read this critical info too — that's fine. But let me warn you now...

I won't confuse you with long-winded medical jargon — but I

won't mince words either. And yes, at times, I will get graphic.

I'm going to name body parts you probably wouldn't mention at the dinner table.

And I'm going to give you the real, **RAW** truth about what's really happening with the most important organ that makes us **MEN**.

So if you're comfortable with a frank, adult discussion about this very important part of your life, please read on.

Why am I writing you today? Because I'm infuriated with what's happening to the sex lives of men over 50!

My name is Dr. Allen Green — and as a medical doctor — I know how important sex — and a healthy orgasm — is for your body. In fact, I believe...

...Vigorous intercourse does more for your body than any

These statements have not been evaluated by the Food and Drug Administration.
This product is not intended to diagnose, treat, cure or prevent any disease.

Journal of Molecular Discoveries

drug ever invented!

Hot passionate sex — and all the huffing and puffing that goes along with it can:

- **Strengthen your heart and lungs!**
- **Keep arteries supple and clear!**
- **Remove cholesterol out of your arteries!**
- **Burn calories and melt away fat!**
- **Bathe every cell in your body with vital oxygen!**
- **Release youth restoring hormones!**
- **And give you really good sleep!**

And I don't have to tell you that...

...for us guys, an earth-shaking orgasm is one of the greatest stress-releasers known to science!

And I know that YOU KNOW...

...that it's pretty good for your ego, too!

So if you've had problems getting or keeping an erection — it's probably messing with your mind almost as much as your body, am I right?

That's probably why you went running to the "little blue pill" — or the other versions of this sex drug. You want the hardness back!

Now before we go any further — let me make one thing very clear:

I'm not against sex drugs as long as they're used properly. If they work for you — BRAVO!

But if they don't — it's time you know the real reason why...

Drug companies make it seem like popping a blue pill is all you need to fix problems with erectile dysfunction (ED).

They even promote "success stories" in their advertisements — showing how easy it is to reclaim your sex life. Remember the Bob Dole commercials?

But after 18 years on the market — scientific studies, clinical trials and truths about the most popular sex drug's real success rate are flooding the news...

But please know this:

Impotence is NOT the symptom of a prescription drug deficiency!

It's caused by a shortage of a little known "Erection Hardening Factor"...

Ever heard of the Erection

Popular
sex
drug!

But did anyone ask his wife?

If "works" means an
impotent man barely gets a
soft erection — then sure, you
can say the Little Blue Pill
"works."

But you and I both know
— soft won't deliver the
goods to satisfy your woman.

That's not rocket

"The Little Blue Pill
fails to work for 3 out
of 10 men. And, even
when it does work,
it does not always
make impotent men
feel and function
completely normal."

science. Even Pfizer recently
confessed:

Ha! "Not function
completely normal" is code
word for LIMP is WIMP!

That's certainly not what
your woman wants — or
NEEDS!

**For strong, firm
erections... do this
NOW...**

...Boost your levels of
Nitric Oxide!

Without enough Nitric
Oxide to dilate blood vessels
and direct blood flow to your
penis — NO sex drug will
work! Period!

BOOST your levels of
Nitric Oxide — today — and
watch the magic happen
TONIGHT!

**Call TOLL FREE
1-800-724-1139
to claim your introductory
supply of N-O Sanguenol!**

Hardening Factor?
Put simply:
It's what takes you from
WIMP... to WOW!

It's what gives you strong,
firm erections! To understand
the importance of the "Erection
Hardening Factor" — you just
need to know the very basics of
how an erection works.

When you're sexually
stimulated — blood flows
quickly and stays in your penis.
This trapped blood increases
the length, width and firmness
of your penis.

Simple, right? Well...

...If arteries are too narrow
— you can't experience a
sustainable blood flow — and
you stay limp.

**Why the "Little Blue Pill"
doesn't work for 50%
of men...**

Without a strong blood
flow — popular sex drugs can't
perform their "magic". These
drugs simply trap blood in
the penis longer — so you can
sustain a firm, hard erection.
But you've got to get the
blood TO the penis for these
drugs to work!

So how do you OPEN
arteries wide enough to get
that blood to your penis? You
NEED...

...The Erection Hardening
Factor known as Nitric Oxide
(N-O)!

N-O is a gas molecule that's
created in the lining of your
blood vessels — called your
endothelium. And as it turns
out...

What's the "E-H-F secret" for healthy circulation and rock-hard erections?

It's Nitric Oxide!

Scientific Proof! Nitric Oxide opens blood vessels by 62% — with just ONE dose!

And it's Nitric Oxide that opens the blood vessels to pump blood to your penis for strong, firm erections. That's why...

Your penis goes from Wimp!
...to Whoa!

SEE and FEEL for yourself!
Call TOLL FREE 1-800-724-1139

...it's N-O that sends the signal
for your arteries to
OPEN and RELAX!

Discovering that N-O is the key to opening blood vessels is nothing short of a breakthrough. In fact — it was a Nobel Prize Winning discovery! Here's why...

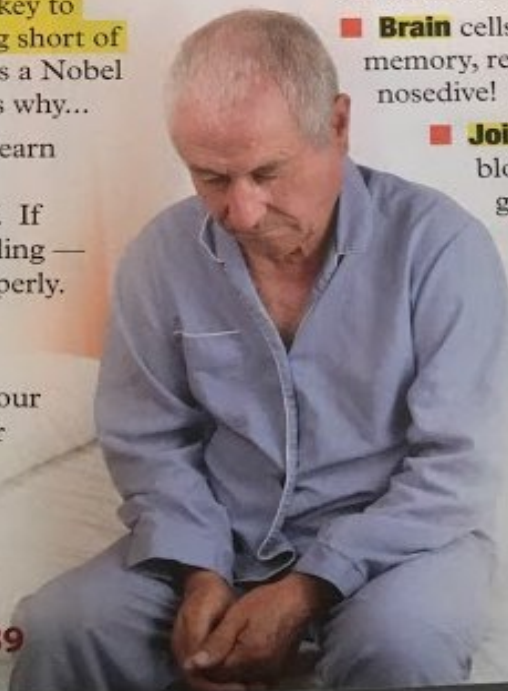

...One of the first things we learn in medical school is the critical importance of BLOOD FLOW. If your blood is sluggish and trickling — then your body won't work properly. Why?

Because nutrient-rich, oxygenated blood can't get to your organs — so they start to wither away. Yes, starve!

That means...

- Your **penis** CAN NOT get

Call Toll-Free 1-800-724-1139

"The strength and maintenance of erections of men on Viagra were not as good as potent men."

says the New England Journal of Medicine

Pfizer The drug manufacturer Pfizer finally admitted:

Viagra fails to work for 3 out of 10 men. And, even when it does work, it does not always make impotent men feel and function completely normal.

Daily Mail reveals shocker: Viagra fails to work for half the men who use it!

stiff with a strong, firm erection!

- Your **heart** has to pump harder — and that could lead to dangerous blood pressure and a heart attack!
- **Brain** cells become sluggish — and your memory, recall and response time take a nosedive!
- **Joints** hurt! Lack of oxygenated blood means LITTLE nutrients are getting to those joints!
- **Feeling numb!** Legs... arms... and other parts lose sensation several times throughout the day — and night!
- **Cold hands and feet!** Without healthy blood flow to your extremities — temperature regulation is downright difficult!
- **And so much more!**

Continued on next page...

**Are you getting the point?
Without adequate levels of N-O
to open blood vessels...
...sex drugs will fail EVERY TIME!**

Let me make this perfectly clear: Sex drugs CAN NOT create N-O — but they absolutely NEED it to get blood in your penis for a strong, firm erection.

So without N-O to open blood vessels — NO ERECTION for you!

So is the solution for a strong erection as simple as taking N-O?
Well, yes — and no!
Let me explain...

Take a look...

...Italian researchers discovered blood flow starts to decline by 10 percent for every decade — starting around the age of 30...

...so by the age of 60 — your blood flow is **52 percent weaker** than when you were in your 30s. And to add insult to injury...

...Japanese researchers reported that 70 to 80 year olds experienced **a 75 percent decline** in endothelial production as compared to their younger years! Remember — your endothelium is where N-O is produced! So a decline in endothelial production equals a decline in N-O production!

Oh — and by the way — all this research was based on healthy adults who didn't have existing problems with blood pressure... high cholesterol... or circulation-damaging blood sugar problems.

So imagine how low your blood flow may *really* be if you currently have some of these health problems!

Now — you see the big problem is that with every

Continued on page 8...

Blood is that revives

When a tree doesn't get the right nutrients — you can tell by the withering fruits. The same is true with your body.

Without nutrient-rich, oxygenated blood getting to your brain cells, heart, lungs, penis — your organs start withering on the vine.

In Chinese medicine — poor circulation is the root cause of health problems...

Traditional Chinese Medicine (TCM) believes that health problems associated with aging are largely caused by stagnant blood circulation. When arteries are constricted, blood flow slows to a trickle — causing sluggish circulation.

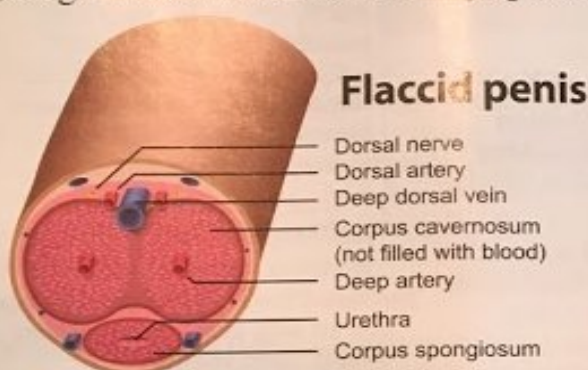

The skin, muscles, heart, lungs, brain, extremities and other organs are deprived of rich, oxygenated blood resulting in a decline in health. Sluggish blood flow also causes your heart to pump harder which leads to high blood pressure and eventually to dangerous cardiac events.

You want your blood flowing like a fast-moving river — rich in nutrients and oxygen. That's what N-O Sanguenol can help you achieve. The nutrients in this targeted, fast-acting formula helps your body boost Nitric Oxide levels in the endothelium. How fast do the ingredients in N-O Sanguenol work?

Is the "River of Life" a limp penis....

Erections depend on the release of Nitric Oxide

One of the main causes of erectile dysfunction is the inability of the blood vessels in the penis to dilate enough to allow blood flow and engorgement.

Flaccid penis

Insufficient blood flow to penis caused by N-O deficiency.

Hard, erect penis

When Nitric Oxide dilates blood vessels, the spongy tissue fills with blood causing the penis to expand, stiffen and stand up.

Most folks notice an improvement after the very FIRST dose!

It may be sharper thinking... a little MORE energy... warmer hands and feet. It's different for everyone — but one thing is the SAME: You will notice a remarkable improvement in YOUR circulation when you take N-O Sanguenol.

And the longer you take N-O

Sanguenol — the better you'll FEEL!

With optimal levels of N-O — your arteries OPEN and RELAX. That's the key to keeping your blood — your vital life force — flowing to every inch of your body.

Give N-O Sanguenol a try during this invitation. Your satisfaction is GUARANTEED. If you're not thrilled with your results — you PAY NOTHING!

Call 1-800-724-1139

Continued from page 6.

passing year... every passing decade — your levels of N-O are plummeting. So the question is: Can you get those levels back up to the healthy range?

The answer is a resounding YES! Because...

Now — there's a remarkable formula that boosts your N-O levels by 99% — with the very FIRST dose!

I've been working with a cutting-edge team of researchers to create a formula that taps into the power of this Nobel Prize winning discovery.

And we've discovered an amazing way to boost your natural levels of N-O **faster and longer** than ever before.

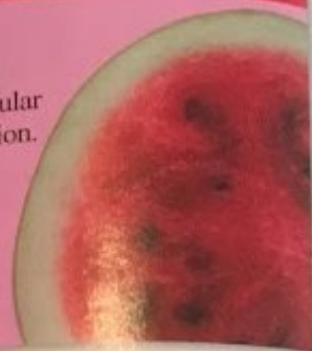

It's a 3-pronged approach that's nothing short of revolutionary! Because NOW — for the first time ever — there's a proven way to MAXIMIZE your levels of N-O in 3 specific and potent ways:

L-Citrulline is an even better Nitric Oxide booster than L-Arginine

L-Citrulline is converted to L-Arginine in the kidney. L-Citrulline boosts L-Arginine and Nitric Oxide production, which promotes vascular dilation and normal oxygen and blood circulation.

Watermelon is a natural source of Citrulline.

The word "Citrulline" is derived from *citrullus* — the Latin word for watermelon.

#1: Deliver raw materials to produce N-O!

#2: Stimulate the production of N-O!

#3: Protect N-O from degrading/breaking down so that its effects last longer!

This 3-pronged approach to increasing your N-O levels is found uniquely — in a proprietary formula called **"N-O Sanguenol"**!

And I'm excited to announce that N-O Sanguenol is now available to consumers. I'll tell you more about how you can sample this revolutionary formula RISK-FREE in a minute — but first...

...let me show you how this TRIPLE-ACTING N-O Boosting formula can RAMP up your N-O levels in record time — to help give you more vim... vigor...and vitality...

TAKE BACK YOUR MANHOOD

Don't let declining Nitric Oxide levels make you "old" before your time.

STEP 1

Deliver raw materials to produce N-O!

Like I mentioned earlier — N-O is a gas molecule. So it can't be stored for later use. It's processed "on demand".

What's more — N-O has a lifespan of about 1 second. So your body must have a ready supply of the raw nutrients on hand to synthesize N-O on demand!

And the main pathway of synthesizing N-O is via the lining in your blood cells called the endothelium. In fact...

70 percent of N-O is produced in your endothelium from the amino acid called L-Arginine...

L-Arginine is a critical amino acid — and one of the raw materials — you must have readily available to produce N-O. It's L-Arginine that gets converted to N-O in the endothelium. And then N-O is released and penetrates membranes and cells — sending signals to:

- Relax and expand arteries!
- Stimulate the release of hormones— including insulin and growth hormones!
- Create cell-to-cell communication!
- And much more!

N-O sends those crucial signals to EVERY cell... EVERY tissue... EVERY organ — just about EVERY second of your life!

So you see how critical it is to boost your body's production of N-O?

Well...

...If you know that N-O is manufactured in the endothelium...

...and you need L-Arginine to convert into N-O...

...then if you want to boost your levels of N-O — it would just make sense to take L-Arginine supplements, right?

Wrong!

Continued on next page...

Call Toll-Free 1-800-724-1139

The key to a strong, hard erection is **Healthy BLOOD FLOW!**

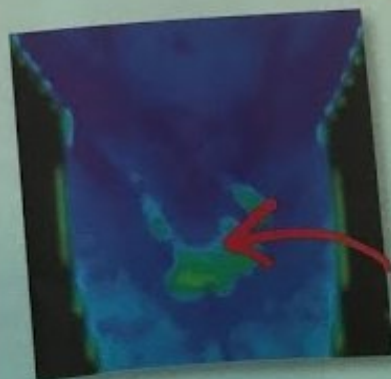

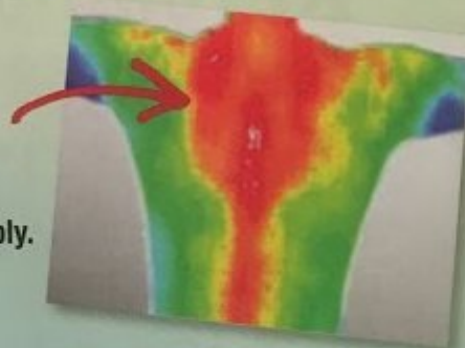

That's how nutrients get to your organs and cells to keep you healthy. Nitric Oxide (N-O) keeps blood vessels open so blood can flow freely to every inch of your body!

But here's what happens when your N-O levels are low — your blood gets sluggish. That means nutrients can't get to skin, muscles and organs!

Heat-sensing cameras show blood flow by detecting increases in body heat.

This vivid red color indicates stronger blood supply.

Blue/green areas represent sluggish blood. **This man needs more N-O for a healthier erection!**

Don't fall for the L-Arginine hype

— that's NOT the way to boost your N-O levels! Here's why...

Scores of L-Arginine products claim to boost your levels of N-O. But that's FAR from the truth. Here's why...

L-Arginine is one of the "super star" amino acids in your body. It's used for numerous functions. For example, L-Arginine helps make proteins, hormones, and neurotransmitters. What's more...

...L-Arginine is quickly snatched up and broken down in your intestinal tract and liver well before it can reach your endothelium.

I say all that to tell you this: the moment you swallow that L-Arginine supplement — there's a mad rush from many body parts trying to grab L-Arginine!

The result is that VERY

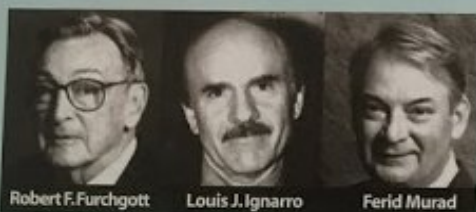

LITTLE L-Arginine actually gets to your endothelium to create Nitric Oxide. In fact...

...it's downright SHOCKING!

Take a look at what researchers discovered about L-Arginine supplements...

In a study of healthy men and

The Discovery That Revolutionized Sexual Health

Robert F. Furchgott

Louis J. Ignarro

Ferid Murad

Researchers Robert F. Furchgott, PhD, Louis J. Ignarro, PhD, and Ferid Murad, MD, PhD, were awarded the Nobel Prize in Medicine for their discovery of Nitric Oxide (N-O) as a signaling molecule.

This discovery revolutionized the scientific community — and gave doctors a powerful tool to treat impotence. Scientists now know the importance of N-O... how

it functions to signal blood vessels to open and relax... and how to create N-O to offset your body's natural decline.

Without the discovery from these researchers — there would be no N-O Sanguenol! But thanks to these Nobel Prize winning scientists — you now have a complete formula to enhance N-O production to experience your personal health miracle!

Try N-O Sanguenol today — completely RISK-FREE!

Just CALL TOLL FREE 1-800-724-1139 to claim your introductory supply!

"The powerful role of Nitric Oxide in the body is so impressive — *Science Magazine* named it "Molecule of the Year"

women, researchers gave all of them various doses of L-Arginine. Then they used a special technique to determine how much of the L-Arginine went into Nitric Oxide production and how much was converted to urea (urine). The results?

Dismal doesn't come close to describing the puny amount of L-Arginine that was actually converted to N-O!

In EVERY case — after the participants ingested and absorbed L-Arginine...

...A whopping 60% of L-Arginine was wiped out! It was immediately converted to urea in the liver! In other words...

You peed away 60% of the L-Arginine supplements!

Now, that's some expensive urine! And get this...

...of the remaining L-Arginine — the amount that made it to the endothelium for N-O production was a measly 2 percent!

That's not a typo. It was just 2 percent! In other words...

...less than one-tenth of 1% of the L-Arginine the subjects took was converted to Nitric Oxide!

So are you seeing that if you want to boost your levels of the raw material you need to create N-O — you can forget about doing it with L-Arginine supplements? No matter what manufacturers promise on their labels!

But there's a BETTER — and more effective — way to get optimum levels of L-Arginine...

...and that smart way is

to take the amino acid called L-Citrulline! Here's why...

...when it's broken down naturally by your body — L-Citrulline automatically converts to L-Arginine! What's more...

...L-Citrulline doesn't convert to L-Arginine until AFTER it makes it through the intestines and liver. That means the newly created L-Arginine bypasses

those organs and doesn't get flushed out with urine...

...and since there's not a mad rush to devour L-Citrulline from other organs — the levels of available L-Citrulline remain high as it travels to your endothelium. And now — you've got a hefty supply of raw material to produce higher levels of N-O!

How much more?

You get TWICE the amount of L-Arginine — without wasting your money on L-Arginine supplements!

Here's the proof:

A double-blind, randomized, placebo-controlled cross-over study of healthy adults showed that L-Citrulline was **TWICE as effective at raising L-Arginine levels as L-Arginine supplements!**

Continued on next page...

Boost circulation to your cell tissues — and put an end to problems in the bedroom!

Call Toll-Free **1-800-724-1139**

That's why I believe that L-Citrulline represents the next-generation of Nitric Oxide science. It's actually BETTER at increasing plasma arginine than arginine itself!

And that's why I include a whopping 800mg of Kyowa Quality™ pharmaceutical grade L-Citrulline in every serving of N-O Sanguenol!

Delivering your body the raw material it needs to produce N-O on demand is SO important — I'm making sure you get the absolute BEST way to do so.

And while L-Citrulline is STELLAR and the results are spectacular — I've discovered another way to make N-O synthesis even MORE powerful. In fact...

Journal of the International Society of Sports Nutrition reveals combining this MASTER nutrient with L-Citrulline shoots N-O production through the roof!

Getting TWICE the levels of N-O from L-Citrulline

is amazing. But it gets even better...

...a study printed in the *Journal of the International Society of Sports Nutrition* reports you can boost the effects of L-Citrulline by combining it with the master antioxidant called L-Glutathione. How?

Well, scientists aren't sure exactly why — but it turns out L-Glutathione has an uncanny ability to make L-Citrulline work even BETTER. The researchers noted a remarkable synergy between these two nutrients that

As reported in the journal, *Urology*
University of Foggia Italian sex
researchers changed their lives forever...

Study participants DITCH their sex drugs

and demand L-Citrulline for strong,
hard, lasting erections! Why?

**Breakthrough study reveals L-Citrulline gets to
the ROOT cause of soft erections —
and delivers desired sexual performance!**

The average age of the 24 volunteers was 56.5. They all suffered from some form of poor sexual performance. And they all wanted their MOJO back.

The Italian researchers gathered specific details from these men including...

- The hardness of their erections

- Number of sexual intercourses per month
- Sexual fulfillment
- Results from attempts at penetration during intercourse
- Satisfaction of treatment to achieve hardness

These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

Journal of Molecular Discoveries

actually SPEEDS UP the release of N-O!

The researchers stumbled on this remarkable phenomenon when they conducted a first of its kind study of the effects of combining amino acids to enhance performance of athletes. Here's what they found:

★ **"The L-Glutathione/
L-Citrulline group of
athletes experienced
'striking improvement'
in performance as
compared to the
placebo group."**

Well, let me tell you...

...that 'striking improvement' gave the athletes taking the L-Glutathione/L-Citrulline combo a WINNING edge over their competitors — a difference between winning a medal — or going home empty handed!

But...

...you don't have to be an athlete to experience this boost in N-O production! The "winning edge" you may be looking for is:

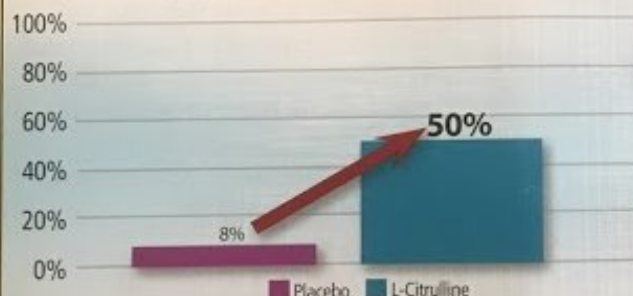

- ☑ **MORE energy!**
- ☑ **Stronger heart!**

Continued on next page...

Boost Your Erection-Hardness Score

Normal erections in the sample tested went up 6-fold with the use of L-Citrulline.

Percentage of men who showed improvement from mild erectile difficulty to normal erectile function.

Then the men were divided into 2 groups. Group 1 received a placebo. Group 2 was given L-Citrulline — the powerful amino acid that creates Nitric Oxide to open blood vessels. Neither group knew what they were taking.

The results?

At the end of the study — 2 men — just 16% — in the placebo group reported an increase in hardness as well as sexual fulfillment.

What happened to the L-Citrulline group?

Well, let's just say ALL 12 guys were GRINNING from ear to ear!

Yes — 100% of them reported a totally restored and

regular erectile function! Their penis hardness went from barely penetrating...

...to blowing the minds of their women!

To say these guys were EXTREMELY PLEASED with their results — was an understatement! In fact...

...at the conclusion of the research — the men were notified that they were taking L-Citrulline. Then they were given the choice of continuing with L-Citrulline or going back to their prescription for their sex drug.

What do YOU think they chose?

They're no dummies! 100% of the men chose L-Citrulline!

You get the power of L-Citrulline to produce optimum levels of Nitric Oxide in every serving of N-O Sanguenol!

Try this remarkable formula today RISK-FREE! Your satisfaction is GUARANTEED! You MUST FEEL and SEE a difference in your sexual performance — or YOU PAY NOTHING!

A double dose of the ingredients in N-O Sanguenol normalizes sexual performance in 50% of male subjects.

This isn't just about your sex life!

Better blood flow means *EVERY* organ and *EVERY* system in your body works better!

Aside from your penis, stronger blood flow helps...

- Reduce stress load on your heart!
- Optimize ATP energy creation and utilization!
- Enhance brain function and memory recall!
- Nourish hair and skin!
- Increase endurance and strength!
- Activate immune function!
- Regulate digestive tract!
- Support healthy blood sugar levels!
- And much more!

Nobel Prize winning scientists discovered it's Nitric Oxide that signals your blood vessels to open and relax. Yet most folks over 40 are dangerously low in this critical molecule!

Fortunately — now you can boost your Nitric Oxide levels by 65% within one hour — thanks to the proprietary formula called N-O Sanguenol! Blood vessels OPEN... healthy oxygen travels through your circulatory system... and you FEEL better — with the first dose! Guaranteed or your money back!!

Give N-O Sanguenol a try during this RISK-FREE invitation.
Call TOLL FREE 1-800-724-1139!

- Better brain function!
- A better sex life!
- Better lung capacity!
- Stronger immune system!
- Warmer hands and feet!

That's more important than any gold medal, wouldn't you say?

Well, in every serving of N-O Sanguenol — you get 80mg of L-Glutathione combined with L-Citrulline to enhance your N-O production!

And with this powerhouse combination — you now have the optimum way to deliver the raw materials needed for producing N-O on demand! And you get both of these stellar nutrients — in every serving of N-O Sanguenol!

So now you see how the Dynamic Duo of L-Citrulline and L-Glutathione can keep the raw materials on hand to synthesize N-O. Now — you're about to discover how the N-O Sanguenol formula can actually...

STEP 2

Stimulate N-O production FASTER than ever!

Remember years ago when news broke out about "The French Paradox"?

Researchers couldn't understand why French people — eating high fat, "unhealthy" diets — had healthier hearts than other Western cultures.

Then they uncovered the secret to the "The French Paradox"!

Turns out that along with the high-fat diet — the French were

also drinking lots of red wine.

And then they discovered red wine contained a spectacular nutrient that's known to keep blood vessels open!

That amazing nutrient — called **resveratrol** — is a powerful vasodilator. That means...

...resveratrol opens and relaxes blood vessels! So resveratrol was getting all this credit for being a heart saver — and rightfully so. But scientists continued to dig deeper — to

find out **HOW** resveratrol was able to open those blood vessels.

You know what they discovered?

Resveratrol opens those blood vessels by **STIMULATING** the production of N-O! Take a look...

Researchers at the University of Louisville School of Medicine in Kentucky reported that resveratrol performs this amazing feat of increasing N-O production right in the endothelial cells. And — just like when a genie says "Open Sesame"...

Continued on next page...

Opens blood vessels by 62% — with just ONE dose!

**Extra
Benefit!**

It's like having the arteries of a 30-year-old again!

That's just how good you'll feel with healthy blood flowing through your entire circulatory system! And it's not wishful thinking — scientific research shows it's possible! Take a look...

Researchers at the University of Louisville School of Medicine in Kentucky report...

Arteries open by an amazing 62%!

The scientists discovered this artery-opening power in resveratrol's amazing ability to increase N-O production in the endothelial cells.

When N-O is produced — it signals the surrounding arterial tissues to relax. This causes blood vessels to expand, eliminate dangerous clots and reduce the formation of artery-clogging plaque. Take a look at how well resveratrol works...

...In a double blind, placebo-controlled trial — patients taking just 30mg of resveratrol experienced a significant increased dilation of the brachial artery. In fact...

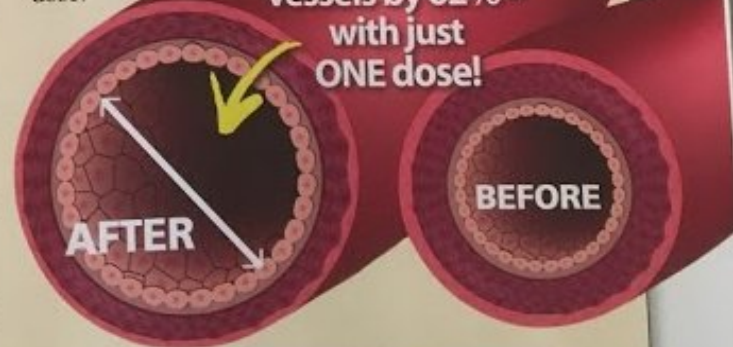

... Flow Mediated Dilation (FMD) test showed the

diameter of the artery increased by an amazing 62%!

That's like having the arteries of a 30-year old again! And with the boost of blood flow — you deliver critical nutrients and oxygen to your cells for optimum health and wellness!

FEEL the difference N-O Sanguenol can make on your health—starting with the very first dose!

**Opens blood
vessels by 62% –
with just
ONE dose!**

Trans-resveratrol, a more bio-active form, increases the diameter of the artery 62% with a single dose of 30mg! That is like restoring the circulation of a much younger person.

**...like magic —
blood vessels expand
by 62 percent!**

Here's the proof:

In a double blind, placebo-controlled trial — patients taking just 30mg of resveratrol significantly increased dilation of the brachial artery. How wide?

Researchers performed a Flow Mediated Dilation (FMD) test which showed the diameter of the artery had increased by 62%!

Imagine how GOOD you can feel — with 62% wider arteries and blood vessels pumping nutrient-rich blood to your heart... brain... lungs... and throughout your entire body! What's more...

...resveratrol comes with a host of side effects — and they're

all GOOD! Resveratrol also helps...

- **Prevent oxidation of LDL "bad" cholesterol!**
- **Keep blood platelets from sticking together!**
- **Support immune health!**
- **Fight premature aging!**
- **And so much more!**

With our revolutionary N-O Sanguenol, you get the most biologically active form of resveratrol — called trans-resveratrol — to help you stimulate more N-O production in your body.

So now you've discovered how to DELIVER the raw materials and STIMULATE N-O production. But it won't do you much good if you don't add this 3rd component. That's because N-O molecules are extremely fragile. So while you're boosting your N-O levels — you've also got to...

**"Sex makes
us feel like
real men!"**

"The ability to perform and to satisfy their partner is an important marker of masculinity"

— *British Medical Journal*

STEP 3

Protect delicate N-O molecules!

N-O is formed from two molecules: nitrogen and oxygen. And any time there's oxygen involved in a molecule — the attack of free radicals multiplies by quantum leaps!

You've heard of free radicals right? They're the rascals that cause severe damage to cells... prevent healthy cell replication... and even disintegrate the nucleus of cells!

And free radicals have been shown to gobble up... hijack... and wreak havoc with N-O production!

The truth is: You can't get away from free radicals. They're EVERYWHERE — in foods... air... environment. In fact, just taking a deep breath creates free radicals!

Since you can't get away from them — in this case, the best DEFENSE is a GOOD OFFENSE!

You need to be proactive at going after those free radicals and clobbering them BEFORE they attack N-O molecules! By doing so, you can extend the lifespan of all those N-O molecules you're creating with the N-O Sanguenol formula!

**Up until recently —
researchers thought free
radicals were all alike...**

...so they thought all you needed to do is eat foods rich in antioxidants — such as blueberries, beans and

Continued on page 18...

Journal of Molecular Discoveries

VROOM VROOM in the bedroom!

Here's the real secret to a hard, firm erection!
(hint: it's **NOT** the little blue pill...)

It's really not rocket science — the secret of a hard, firm erection...

...is blood pressure!

The only way for the penis to go from limp... to firm — is with strong blood flow!

Arteries bring blood into the penis and veins carry blood away. When aroused, arteries open up and veins are constricted. This action traps pressurized blood — and that's how the penis increases in size to create a full erection.

So how do you signal those blood vessels to open and relax to allow blood flow to the penis?

You guessed it! It's N-O!

In fact — popular erectile dysfunction drugs — like

the little blue pill — work on Nitric Oxide pathways to increase blood flow to the penis. That's how they improve erections and sexual performance.

You can pay \$54.95 for just one little blue pill — with NO GUARANTEE of performance.

Or, double your dose of N-O Sanguenol to enhance your sexual performance!

For enhanced sexual performance — you don't have to break the bank. You can increase your natural production of N-O for just pennies — and you can see and FEEL results — starting with the first dose. Your satisfaction is guaranteed or your money back!

of N-O Sanguenol during this
limited time invitation!

Call Toll-Free 1-800-724-1139

cranberries... or take a high dosage antioxidant formula and you would deliver antioxidant protection to all your cells.

Boy — was this approach wrong... Wrong... **WRONG!**

Turns out — new research shows free radical invasions are like bacterial infections: Just like you need different types of antibiotics to kill different types of bacteria...

...you need different kinds of antioxidants to clobber different kinds of free radicals!

Researchers identified 5 major classes of free radicals — each with unique characteristics that can damage N-O molecules in different ways!

These 5 free radical types are called Peroxyl, Hydroxyl, Peroxynitrite, Superoxide and Anti-Singlet.

Now, I'm not going to bore you with the scientific and intricate

details of how these pesky free radicals cause damage. But I will tell you this:

If you want superior head-to-toe antioxidant protection, you've got to be able to defend against all 5 different types — for optimum N-O protection. In other words...

...you need a **broad spectrum** of antioxidants that targets all 5 of these free radical types!

Well, that was easier said than done — until now!

To get **CLOSE** to consuming the mega quantities of antioxidants you need for optimum N-O protection — you'd have to consume **DOZENS** of specific fruits... superfoods... vegetables... and herbs **EVERY DAY!**

Or you'd have to buy several

bottles of antioxidants — and take a fistful of pills daily!

That's just not practical — affordable — or desirable for most of us. But here's the great news...

...N-O Sanguenol contains a powerful, **FAST-acting**, whole-body antioxidant formula called **Spectra** — that's **MORE** complete than any other antioxidant formula on the market! Here's why:

Spectra contains 38 vitalizing nutrients that **fight** the onslaught of **all 5 classes of free radical attacks!** No other antioxidant formula can come close to making that claim!

With this **potent** Spectra antioxidant blend — available uniquely in N-O Sanguenol — you can now protect delicate N-O molecules from all 5 types of free radicals! But that's not all...

Fight your body's natural decline of Nitric Oxide with N-O Sanguenol

- ✓ Supports healthy sexual performance!
- ✓ Increases N-O levels 64%!
- ✓ Increases vasodilation by 30%!
- ✓ Maintain healthy circulatory system!
- ✓ Promotes oxygen and blood circulation!
- ✓ Maintain healthy cardiovascular function!
- ✓ Helps prevent hardening of the arteries!
- ✓ Relaxes blood vessels!
- ✓ Promotes optimal blood flow!
- ✓ Promotes healthy aging!
- ✓ Supports healthy endothelial function!
- ✓ Delivers antioxidant protection from free radicals that damage blood vessels!
- ✓ Help support a healthy heart!
- ✓ Supports healthy c-reactive protein (CRP) and blood platelet levels!
- ✓ And much more!

These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

The harder the erection, the healthier the man

How can N-O Sanguenol increase Nitric Oxide levels so fast?

The secret is N-O Sanguenol's formula has the amazing ability to:

- ✓ Deliver raw materials to produce N-O!
- ✓ Stimulate the production of N-O!
- ✓ Protect N-O from attack — and lengthen lifespan!

N-O Sanguenol is a full-spectrum, multi-faceted Nitric Oxide booster. That means this remarkable formula works on multiple molecular pathways to enhance your body's production of N-O. This comprehensive approach delivers the critical nutrients to...

Double your L-Arginine levels!

Deliver raw materials to produce N-O in your endothelium!

With Kyowa Quality™ L-Citrulline — you get the ultimate precursor for L-Arginine conversion — and that means more N-O to open blood vessels!

PLUS: L-Glutathione has been scientifically shown to turbo charge N-O production when combined with L-Citrulline. Studies show you get TWICE the L-Arginine levels with this dynamic duo! And you get them both in every serving of N-O Sanguenol!

Arteries open 62% wider! Stimulate N-O production!

The active compounds found in resveratrol have been clinically shown to induce vasodilation by increasing N-O production.

In one study, researchers report the diameter of the artery increased by 62% in patients who took just 30mg of resveratrol! The secret to this artery-opening power is resveratrol's uncanny ability to stimulate N-O production!

Boost N-O levels by 99% — with first dose!

Protect N-O from attack — and lengthen lifespan!

The antioxidant blend containing potent superfruits and vegetables found in Spectra™ contain healthy dietary nitrates. These nitrates are converted to N-O in secondary molecular pathways in your body.

A recent study showed 86% of the folks who experienced a positive result from taking Spectra boosted their N-O level by 99% — with the very first dose! Spectra was also shown to clobber dangerous free radicals that attack N-O molecules by as much as 42% within two hours!

SEEING is BELIEVING.

And FEELING better has never been easier — thanks to N-O Sanguenol! Try this remarkable formula for yourself — completely RISK-FREE!

Just call TOLL FREE
1-800-724-1139 today!

Call Toll-Free **1-800-724-1139**

Proof... Proof... and more scientific PROOF!

N-O Sanguenol not only WORKS — it WORKS FAST!

Laboratory tests — as well as human trials — show the ingredients in N-O Sanguenol deliver delivers antioxidant protection from all 5 types of free radicals — starting in as little as two hours!

Please know this: In the scientific field — this level of antioxidant protection — from all 5 types of free radicals — is **nothing short of AMAZING!** Here's the proof:

One study reported the ingredients in N-O Sanguenol significantly reduced:

■ **Peroxy** free radicals in blood by 14% — within 2 hours! These are the most popular types of free radicals in your body — so this is a huge KNOCKOUT punch!

■ **Superoxide** free radicals — which attack your arteries and damage DNA! A solid 14% reduction in the blood — within 3 hours!

■ **Hydroxyl** — the free radicals that damage cellular membrane. A 12% reduction — within 3 hours!

■ **Peroxynitrite** — which break down collagen in the skin and singlet oxygen free radicals that wreak havoc with cholesterol — also dropped! And take a look at this:

- ✓ **All 5 types of free radicals** found in the mitochondria — which is your cell's nucleus — were reduced by 42% — within 2 hours!
- ✓ Inflammation in blood — caused by **ALL 5 free radical types** — dropped 35%!
- ✓ **INCREASED** cell's ability to consume healthy oxygen levels by a **whopping 136%** — **within 1 hour!**

But here's even MORE good news...

Spectra actually BOOSTS N-O levels by 99%!
(Yes — nearly DOUBLED!)

I'll be the first to admit that I wanted Spectra in my N-O Sanguenol formula because

of the antioxidant PUNCH it delivers to free radicals. In my scientific opinion — **NOTHING** wipes out free radicals better than this proprietary formula. But then I discovered...

...Spectra is a potent N-O booster too!

That's because all the potent superfoods — rich in antioxidants — that are found in Spectra also contain an abundance of healthy nitrates and nitrites — the two dietary compounds that create N-O in your body! And get this...

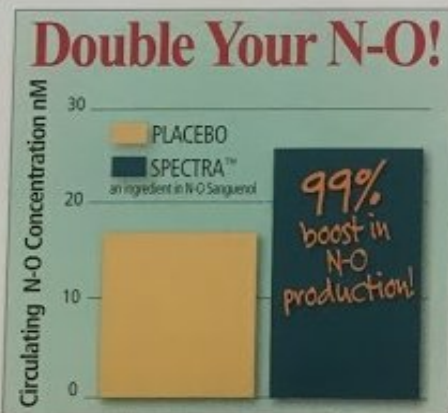

...nitrates and nitrites are a natural reservoir and secondary pathway to creating N-O from fruits and vegetables! So it's no wonder Spectra can also boost N-O production. It's loaded with superfruits and veggies! But even I was floored by how well Spectra worked. Take a look...

...a recent study showed 86% of the folks who experienced a positive result from taking Spectra...

...BOOSTED their N-O level by 99%!

That's right — with the very first dose — those participating in the study **DOUBLED** their output of N-O. This is a well-documented **FACT**, my friend.

Continued on page 22...

N-O Sanguenol can double your Nitric Oxide levels, allowing your blood to flow like a fast-moving river!

These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

Hiding puny doses in their “Proprietary Blends”!

It just makes sense that if you want to get the same results found in scientific studies — you have to use the same nutrients and take the same doses. It's not rocket science.

But many supplement companies hide their measly doses under the veil of "proprietary blend". That way they don't have to reveal that you're not getting the levels of the nutrients you need for the results you want. For example...

...most beet extract products don't even contain the 400 mg clinical dose of nitrates you need for optimum N-O production. Why not?

Because manufacturers would need to include a whopping 4,500 mg of beet extract in their formula to deliver that level of nitrate conversion! What's more...

...many Nitric Oxide supplements don't list the amounts of the individual ingredients in their formulas. They just lump them all in as a "proprietary blend". But...

...here are 3 big problems with proprietary blends:

1 It's nearly impossible to evaluate the product's true effectiveness!

**SHAME
ON YOU!**

2 It's downright impossible to determine the effectiveness of each ingredient!

3 You don't know if you're getting the clinically effective dose!

The bottom line is: there's no point in taking a Nitric Oxide supplement if you're not getting an optimum dose!

With N-O Sanguenol — you know exactly what you're getting. You know the nutrients — and the doses that are clinically proven effective! That way you KNOW you're getting the real deal for your money!

Don't settle for anything less than the BEST!

With these kinds of results — it's like turning back the age clock — and having 30-year old arteries again!

With the healthy blood flow you're going to experience with N-O Sanguenol — you can help:

- **BOOST sexual performance** — thanks to higher N-O levels!
- **Fight off the natural decline** of N-O that happens

with every birthday!

- **Open blood vessels wider** to receive life-saving oxygen and nutrients!
- **Enhance blood flow** — for higher energy... sharper thinking... and a healthier heart!
- **Keep N-O molecules safe** from free radical attacks — and extend the lifespan of N-O!
- **REV UP N-O production!** Double the output with the first dose — and keep doubling N-O

production throughout the day!

Those are just some of the benefits you'll experience when you tap into the power of N-O Sanguenol to:

- **Deliver** raw materials to produce N-O!
- **Stimulate** the production of N-O!
- **Protect** N-O from attack — and actually lengthen the lifespan of this amazing molecule!

ED is a warning sign of clogged arteries.

A first sign — *may* be your **ONLY** sign...

Poor blood circulation can lead to plaque build-up in your arteries over the decades. So you may feel fine — until you experience a serious heart episode.

And for many people — that's the one and only warning they ever get!

Your entire body depends on strong circulation for oxygenated blood. So it's not just poor blood circulation at issue, it's poor

OXYGEN circulation — because the #1 nutrient your body needs is oxygen.

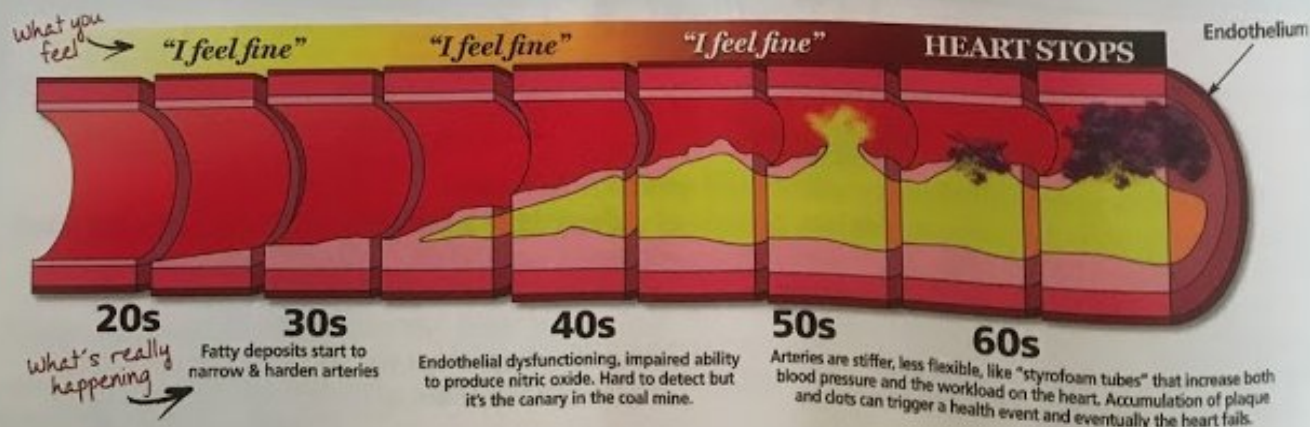

The transfer of oxygen from blood to cells is perhaps the most significant underlying factor in whether you live a healthy life or not.

N-O Sanguenol enhances blood and oxygen circulation. That's why most folks experience a noticeable improvement in their health with the very first dose!

"In more than 50 percent of people with heart disease, a sudden, unpredicted, deadly heart attack is the first sign of heart disease."

—Nathan Bryant, Ph.D., Author, *The Nitric Oxide (N-O) Solution*

With this superior formula — I'm confident you're going to **FEEL** better than ever. And by the way...

That's not a promise — it's a bona fide GUARANTEE or it's free!

I can't wait for you to experience the remarkable benefits that come from healthy blood flow to your **ENTIRE** body! And you won't have to wait long because you can experience your circulation miracles — starting with the very first dose of N-O Sanguenol!

That's why you can't help but **FEEL BETTER** with this **FAST-ACTING** formula. But the **BEST** way to know how good you'll feel is to try N-O Sanguenol for yourself. And now — you can sample this remarkable formula **100% RISK-FREE!**

You risk NOTHING!
N-O Sanguenol must EXCEED your expectations — or you PAY NOTHING!
No ifs, ands or buts about it!

When a formula works as well as N-O Sanguenol...

...it's easy to stand 100% behind this unique formula...

...it's easy to offer you a **FULL** money back guarantee if you're not completely thrilled with your results...

...and it's definitely easy to give you a full 90 days to make sure this circulation-boosting formula is working for you!

Because the truth is: **VERY FEW** people ever return this formula! It quickly becomes a **MUST-HAVE**. They see the results — and they **LOVE** how

they feel. And you will too!

So — pick up the phone now — and **CALL TOLL FREE 1-800-724-1139** to claim your introductory supply of N-O Sanguenol during this limited time offer.

Please know this: The special pricing you see on page 26 is only available while supplies last! Feel free to order as many bottles as you like — but when this introductory inventory is exhausted — this introductory offer **EXPIRES IMMEDIATELY**.

I don't want you to miss out on getting N-O Sanguenol at the **LOWEST PRICE AVAILABLE ANYWHERE!** So take advantage of this opportunity while you still can. And remember...

...if you're not 100% thrilled with your results — you can return all the unopened bottles for a **FULL REFUND**. So you have absolutely nothing to lose by stocking up while this sale is available!

Let the discovery of "The Miracle Molecule" deliver you the health miracle you've been searching for. With optimum blood flow to every cell in your body — you can't help but **FEEL** better.

Now that N-O Sanguenol is available to consumers — you have a scientifically studied formula to unleash the power of N-O for healthy circulation... higher energy levels... sharper thinking... deeper breathing... and a healthier and longer life!

Here's to science-based healing miracles,

Dr. Allen Green, MD
Dr. Allen Green

P.S. I forgot to mention one

important thing: When you respond within 7 days — I've got a special gift to send you.

I realize this may be the first time you've really thought about Nitric Oxide as a part of your wellness program.

And the truth is: What I've mentioned about N-O just scratches the surface. There are so many more health benefits you can experience from this "Miracle Molecule"!

That's why I've created a special report that's easy-to-understand and tells you more about N-O.

It's called "Say **YES to N-O** for **Optimal Healing!**" In this report you'll uncover:

- **Little-known — and tasty — N-O Boosters!** YES — you can **EAT** your way to healthier N-O levels!
- **Taking pain pills?** Find out how to use N-O for optimum results!
- **Turn DOWN sauna heat — and REV up N-O production!** For even better results — make sure to follow the "15-30" protocol explained in your report!
- **Secret cause of sleep-deprivation!** Could this be why you're tossing and turning all night?
- **The BEST birthday gift for friends turning 40!**
- **And much more!**

Revive Your Sex Life!

Starting with the very first dose

N-O Sanguenol is the ONLY formula that's scientifically shown to enhance your Nitric Oxide levels in THREE remarkable ways:

- #1: Deliver raw materials to produce N-O!
- #2: Stimulate the production of N-O!
- #3: Protect N-O from attack — and extend the lifespan of this amazing molecule!

With more N-O — your blood vessels open and relax — and you experience healthy circulation throughout your entire body!

N-O Sanguenol starts to work with the very first dose!

No other formula has the scientific support to rightfully claim to...

- Open blood vessels by 62% — with just ONE dose!
- BOOST N-O levels by 99%!
- TWICE the L-Arginine levels for healthy N-O conversion!

That's why I'm confident you're going to experience remarkable health benefits when you try N-O Sanguenol for yourself!

No Risk, 100% Money Back Guarantee!

Since N-O Sanguenols works differently for everyone — I want YOU to decide for yourself — based on your personal results — if N-O Sanguenol is doing the job for you! How can you tell if this remarkable formula is working? Well, you may soon experience...

- Firm, hard erections!
- Higher energy levels!
- Stronger heart!
- Better lung capacity!
- Quality sleep!
- Enhanced memory recall!
- Shinier hair!
- Better immune function!
- Youthful glow to your skin!
- Increased endurance and strength!
- Healthier digestion and bowel function!
- Warmer hands and feet!

N-O Sanguenol enhances blood circulation — and

poor circulation is your "canary in the coal mine"

So please heed this early warning sign of danger on the horizon...

How do you know if you've got stagnant blood flow?

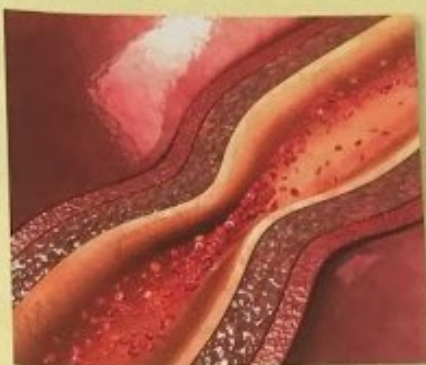

The truth is — you don't know until you start to experience the results of poor circulation...

- Low energy
- Fuzzy thinking
- Cholesterol problems
- Skin blotches
- Achy joints

- Cold hands and feet
- Numbness
- Muscle cramps
- Soft erections
- Poor immune health
- Hair loss and weak nails
- Varicose veins
- Digestive problems
- Swelling or water retention

...are just a few of the warning signs. And you can be sure of this:

If you're over 40 — you're already low on N-O! Without

optimal levels of N-O — poor blood flow is inevitable.

But the good news is — now you can boost your levels of N-O to keep arteries OPEN and RELAXED. With the ingredients N-O Sanguenol — you can enhance circulation — and FEEL the difference — starting with the very first dose!

Think of N-O Sanguenol as your body's natural "health insurance." Just take 2 capsules a day!

that means — it can do amazing things for your entire body! That's why you get to be the judge on how well this remarkable formula is working for you! And please remember:

✓ **Pay absolutely nothing unless you're 100% satisfied with your results.** If, for any reason — you're not completely thrilled — then return the bottle(s) within the first 90 days — even if you're down to your very last capsule — and you get a FULL REFUND (less S&H)!

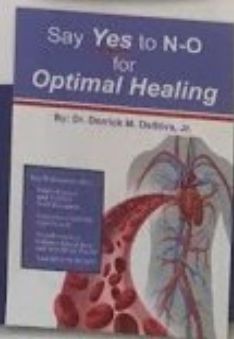

✓ **Get a full 90 days to try N-O Sanguenol!** So take your time — and give your body the full opportunity to boost your levels of N-O so you can experience your own health miracle!

✓ **Your FREE gift is yours to keep!** The special report you receive when you order within 7 days is yours! No strings attached. Think of it as my way of saying, thanks for giving N-O Sanguenol a fair try!
